Impuls380 Filling valve for back connection, without refill,
for Australia

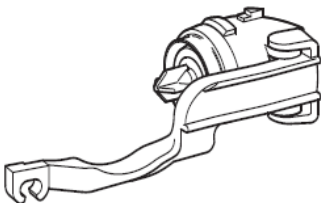

Ordering Information

Article no.	Description
222.013.00.1	Impuls380 Filling valve Unifill for back connection, 3/8" flexible hose with DR brass connector, without refill

Service and spare parts

Geberit Unifill cistern inlet valve is maintenance friendly. In the event of a blockage, the silicone diaphragm and lever part can be easily removed for cleaning without tools. The spare part is supplied as a kit (diaphragm, insert, cover, lever and installation instructions) in one package.

Art. No.	Description
170.360.00.1	Diaphragm and lever
